Mulhouse, 2 April 2014

Dear Slavko Maksimovic,

Thank you very much for your nomination to consider as an EPS Historic Site the University of Belgrade - place of Milanković's climate research (Belgrade, Serbia.)

I am pleased to inform you that a Committee of high level scientists, who have carefully evaluated the nomination, has decided to include your proposed site in the list of EPS Historic Sites.

In order to proceed with your proposal, we would ask you to let us know:

- whether the necessary administrative approvals have been received
- which institutions/authorities will be involved in the ceremony
- is there an event (conference, workshop etc.) attached to the ceremony
- what financial support is available from the local administration/authorities
- what media coverage is foreseen.

The EPS is open to suggestions regarding the appropriate dates and occasion for the ceremony to commemorate your proposal.

A commemorative plaque (in marble or metal) needs to be made. The EPS can provide plans for the design. The plaque also needs an appropriate text to be drafted by you and agreed with the EPS. A delegation of EPS representatives will also attend the ceremony.

We appreciate very much your recommendation, and look forward to a close collaboration to ensure a memorable recognition of the location proposed.

With best regards

David Lee
